### GT1058S- 5" FUSION SHORTY HANDLE

A revised version of the GT1058- 5" Fusion Short Handle. This version is without the collar around the top of the handle. Designed to optimize your leverage in removing mounting solution. Holds any of the 1/4" thick 5" wide squeegee blades. Great for high performance automotive films and smaller residential windows.

## THE BIG MOUTH BLADES

BLADES AND HANDLES SOLD SEPARATELY

**Why is a Big Mouth Blade a good idea?** The 3/8" thick blades are ideal for thick security films, graffiti films, hurricane/ bomb blast films, and windshield protection films. It is a much stiffer option designed to optimize solution extraction while not putting more pressure on the back and arms of the installer.

**Make your Big Mouth Blade work even better.** One of the biggest issues installers encounter when installing thick mil films is extended dry time. This is mainly due to not being able to extract a majority of the solution because their current tools flex too much or they don't have enough strength to push as hard as they need to. The Big Mouth handles and 3/8" Blades are the solution to that problem by taking more of the force required to adequately finish the job off the installer and onto the tool.

GT2117 - 5" BIG MOUTH 3/8" THICK NO BEVEL SQUEEGEE BLADE  
GT2118 - 8" BIG MOUTH 3/8" THICK NO BEVEL SQUEEGEE BLADE

\*\*These are 90 Durometer

# SCRUB-IT BY TRI-EDGE

The new Scrub-It by Tri-Edge is coming early to Mid-November. Order now to receive the first available!

The SCRUB-IT is a hand-held scrubbing tool that uses the leverage of the back of your hand to clean glass from contaminants or adhesive residue. The SCRUB-IT allows you to use your hand to reach in most places and scrub evenly throughout. Scrub-It is a one size fits all as it can be adjusted to all hand sizes with the attached Velcro strap.

The Scrub-It pads are available in two styles.

- The Green Scrub-It (GT2120G) comes with a Tan color scrub pad that is great for every day cleaning and prep work.
- The Blue Scrub-It (GT2120B) comes with a Blue color scrub pad that is more aggressive and used for removing adhesive from the glass.

Replacement pads are available in 10 packs as GT2121B & GT2121T but each tool comes with one scrub pad. Both pads are made of scratch resistant material but use with caution. Test on a small part of glass before use as not all glass is made the same!

**\*Please make sure to check newer vehicles for factory coatings that are applied to the inside of the glass that might be damaged by the Scrub-It.**

GT2120G - SCRUB-IT GREEN/TAN PAD

GT2120B - SCRUB-IT BLUE/BLUE PAD

GT2121B - SCRUB-IT PADS- BLUE (10 PACK)

GT2121T - SCRUB-IT PADS-TAN (10 PACK)

### GT2119- SPIDER SPIT (Gallon)

A specially created formula for application of PPF and wet install vinyl films. Contains no particulates, no degreasers, lanolin or harsh chemicals that weaken the performance of your products. Slips when you need it to and tacks quickly. Mixing ration: 1 ounce per gallon of water. Distilled water works best!

### GT2122- FUSION AFTERBURN TAPE

This amazing product is self-adhering, meaning it bonds to itself with no adhesive. When it's removed, there is no leftover glue residue. Apply it to anything and everything! Torch tips, heat guns, tools, steamers, and more! The list is endless! This tape stretches up to 300% and molds perfectly to odd shaped items. High heat resistance up to 500 degrees Fahrenheit (about 260 degrees Celsius) with only one layer applied. Double or triple your layers to increase your level of heat resistance and protection!

## COMING SOON

---

### TINTLIGHT

GDI expects to be stocking the LXT model of TintLight very soon. More details to follow.
